General storm water construction	2 ^h	0	3
<i>Clean Air Act</i>			
Operating air	56	31	10
Construction	0	0	3
Prevention of significant deterioration	0	0	0
<i>Sanitary Sewer</i>			
Sanitary sewer	1	0	0
<i>Toxic Substances Control Act</i>			
TSCA Incinerator	0	0	1
R&D for alternative disposal methods	1	3	0

^aThree permits have been issued, representing 14 active units.

^bThree applications are under review by TDEC, representing 6 active units.

^cTwo permits have been issued representing units closed under RCRA in Bear Creek Hydrogeologic Regime and Chestnut Ridge Hydrogeologic Regime. One additional permit (for the Upper East Fork Poplar Creek Regime) is pending as of publication of this report.

^dThree landfills are operational, one (Spoil Area 1) is inactive and is in the RI/FS process under CERCLA; and one (Landfill VII) is constructed but not operational as of December 1995.

^eIssued 4/28/95 and effective 7/1/95. TDEC has incorporated requirements for stormwater into individual NPDES permits.

^fTDEC has incorporated into individual NPDES permits.

^gTDEC has incorporated into a draft NPDES permit.

^hNotice of intent that accesses a general NPDES permit. Two notices of intent remain on file for construction at Landfill V, VII, and for tree maintenance on tributary 7 at the Walk-in-Pits closure.
